Transform your **HOME** into a **TREE**
by painting with **GRAPHENSTONE***

*Three 15 litre pots of our paint absorbs more than 10Kg
of CO₂. This is the same amount an adult tree weighing
250kg would absorb in one year.

Arezza
DECORATIVE KIT FOR WOODS

www.graphenstone.ca

Arezza

Arezza is a kit to **obtain a fossilized or aged wood finish**. The kit consists of the following products:

Patina (A): ecological natural patina in lime base.

Shade (B): varnish (shade available in 4 shades) that gives tonality to wood. It is used to obtain natural and decorative finishes for wood.

Protector (C): water-based polyurethane varnish. Highlights the beauty of the wood without altering the tonalities and contrasts of the grain. Guarantees an excellent resistance to bumps, scratches and stains.

Shades for wood

Shades are available in 4 different tones.

Colours are approximate and may vary from the original colour.

3-STEPS APPLICATION:

(1°) Apply the PATINA diluted 1:1 by weight. Allow to dry 24 hours.

(2°) Apply SHADOW diluted 1:1 by weight. Allow to dry 24 hours.

(3°) Apply PROTECTOR undiluted. Allow to dry 24h for total drying.
