Transform your **HOME** into a **TREE**
by painting with **GRAPHENSTONE***

*Three 15 litre pots of our paint absorbs more than 10Kg of CO₂. This is the same amount an adult tree weighing 250kg would absorb in one year.

Firenzza

Firenzza is an aerial lime mortar for walls ideal for creating **decorative textures**.

A mortar to create textures that evoke the primary **origins of nature**: sand, water, stone and the passage of time on it.

Thanks to its formula with **graphene technology** and its **lime base**, it is more resistant and highly breathable. Therefore it allows you to **decorate in a healthier way**.

The Textures of the Earth

Textured finishes for Firenzza mortar
