## About Graphenstone

[www.graphenstone.com](http://www.graphenstone.com)

Graphenstone is the global manufacturer of the first 100% natural coatings with a positive impact on the environment and people's health. The perfect combination of lime and Graphene Technology, tradition and innovation, form the ultimate ecological coatings and paints that are unique in the world.

Graphenstone Technology provides greater strength, flexibility and homogeneity. It is the most advanced solution of ecological paints on the market, using high quality raw materials that purify the air. The project is totally focused on sustainable construction while maintaining the principles of circular economy and contributing to energy efficiency. Graphenstone products fit perfectly in projects that include Green Building, Passive Houses and Smart Cities. All this while offering elegant finishes and the aesthetic design expected of a high-quality paint.

## What makes us unique?

Graphenstone paints are healthy, natural, sustainable and durable. Our range is the perfect solution for the health of both our planet and people.

- Careful choice of sustainable raw materials.
- Free from harmful substances and microplastics.
- VOC Free (Volatile Organic Chemicals).
- Water based, solvent-free.
- Lime-based products absorb CO<sub>2</sub>, purifying the air. Highly breathable.
- Excellent flexibility; does not crack.
- Odourless.
- Significant savings in maintenance and repair costs.
- Tough and long-lasting.
- High adherence.
- Prevention of mould and mildew growth given lime's alkalinity.
- Buckets of up to 100% recycled plastic and 100% recyclable.

## Premium Paints (Natural Lime Paints)

[www.graphenstone.com/paintdifferent/](http://www.graphenstone.com/paintdifferent/)

Graphenstone Premium natural lime paints meet the highest sustainable standards, featuring outstanding environmental and health benefits.

Based on high purity and quality lime combined with Graphenstone Technology, Graphenstone Premium lime paints are unique in the market. Available in white (>98% whiteness) and a selection of pastel tones.

	High covering power	Cradle to Cradle Certified	Absorbs CO <sub>2</sub>	Excellent performance	Washable	Avoids condensation	Mineral matt finish	Application by roller, brush or airless	Fire performance class A1	Photocatalytic	Eliminates odours	Energy efficiency	Interior & Exterior	Exterior	Interior

## GrafClean Premium (Ecological Range)

Eco-friendly paint consisting of a water-based emulsion free of VOCs and APEO with Graphenstone Technology. Suitable for both interior & exterior use. GrafClean is presented as an alternative eco-solution to the conventional paints on the market, with a very easy application and exceptional washability. Available in white and a wide variety of interior and exterior colors.

- Interior/exterior use for walls and ceilings.
- Matt finish.
- Excellent washability (Class 1).
- Great covering power.
- Application by roller, brush or spray.
- Cradle to Cradle Certified.

## Graphenstone Color System

Graphenstone paints use high quality pigments specifically formulated to work with our bases and the Graphenstone Color System.

- Free of VOC, APEO and solvent pigments, meeting the highest environmental standards.
- Interior colors: Combination of inorganic and organic pigments through which a wide range of color tones are achieved.

- Exterior Colors: Formulations based on pigments resistant to weather and temperature.

*Customers requiring other color tones not represented on this color card can request color matching service, where available, to achieve the shade of their choice*

## Natural Color from Nature

This color selection is inspired by harmonious colors and the shades of the earth. It offers a selection of delicate, exquisite and trendy tones adapted to different spaces and rooms.

## Certifications

Our commitment to sustainability and the environment is evidenced by the most demanding and internationally renowned certificates and quality seals. We are proud to claim that Graphenstone is the world's most certified green paint company.

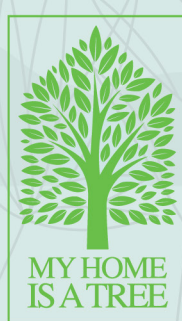

## Kind to our Planet

Graphenstone products enhance the quality of buildings by using only sustainable materials. They help to reduce global waste and pollution as well as future-proofing our health and wellbeing by improving the indoor air quality. The raw materials used to manufacture our products feature a reduced environmental impact, with certificates proving it.

*Turn your city into a forest*
